DO YOU CARE ABOUT COMFORT AND SECURITY?

PROTECTED BY INTERNATIONAL PATENTS

3 details which let you love your door

DOUBLE SECURITY

With the double lock-bar system, your door can be easily locked and unlocked during manual operation or during power failure.

CARE ABOUT THE DETAIL

A rope with handgrip let you easily close the door during manual operation.

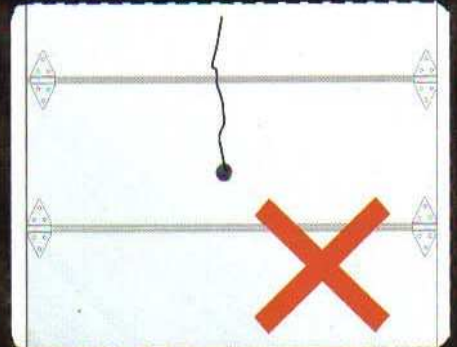

PROFESSIONAL ENGINEERING

Professional engineering makes a door worth being called a door: you don't need to fiddle around with a lock-cylinder just stuck in the middle of your panel during manual operation.
